NAME
pascii − print ASCII codes

SYNOPSIS
pascii [**-h**]

DESCRIPTION
This program is a simple ASCII code lookup utility. When invoked, it reads characters from the terminal and displays their ASCII values in decimal, hexadecimal, octal, and binary. Any character can be entered, including those that have special meaning to the shell. To exit the program, press Control-C.

OPTIONS
-h   Display a command synopsis and copyright message.

SEE ALSO
ascii(7)
